Roosevelt Hints Axis Forces In Greenland

U.S. Will Patrol Seas As Far As Needed For Hemisphere Defence

Administration Not Thinking Of Escorting
Convoys At Present Time, President
Tells Press Conference

WASHINGTON, April 25.—(AP)—A possibility that Axis forces partly occupy Greenland, Danish Island in the north Atlantic now under United States protection, was disclosed by President Roosevelt today in what he frankly termed a surprising statement.

At the same press conference, Mr. Roosevelt said the United States neutrality patrol would operate as far into the waters of the western hemisphere as may be necessary for the defense of the western hemisphere.

But emphatically the president said his administration was not thinking of convoys at this time. He described the task of United States patrol ships as the reconnaissance of ocean areas to determine whether an aggressor ship might be coming from the western hemisphere.

Convoys, on the other hand, Mr. Roosevelt said, was something

U. S. Should Declare War Immediately To Turn Tide To Victory

By WILLIAM H. STONEMAN
LONDON, April 25.—(CDN)—Highly competent American experts, who are intimately acquainted with the situation both at home and in Europe and who are fully qualified by their intelligence and long experience to judge the broader aspects of the present crisis, are now agreed that immediate participation of the United States in the war is a matter of desperate urgency.

VICTORY LOAN TO BE OFFERED PUBLIC JUNE 2

OTTAWA, April 25.—(CP)—"Canada's forthcoming war loan, the third of the present war, will be offered to the public in the form of a public loan, starting June 2," Finance Minister (Liberal) announced today. He said the amount of the loan and the terms have yet to be determined.

The loan will be called "Victory Loan 1941."
Amount and terms of the loan will be fixed at a later date when the national government has decided on the war loan campaign, under the executive direction of G. W. Spencey of Montreal, has been completed.
Mr. Haley in announcing the name and date of the loan, said: "Every dollar we spend in waging war is spent to bring about victory. The forthcoming loan, therefore, will be Canada's 'Victory Loan.' The name expresses all once the determination, faith and purpose of the people of Canada."

Mr. Haley said a national committee

Conservation Procession

Shown above is a part of the conservation procession proceeding into the city of Edmonton for the conservation of the city. Bishop of the Anglican Diocese of Edmonton, from left to right: Rev. F. H. Wilkinson, Montreal, preacher at the procession; Bishop Barfoot; Rev. A. W. Hunt, chaplain; Bishop Henry Murray of Saskatchewan; Rev. W. T. Elgin, his chaplain; Bishop Knox of Qu'Appelle; Rev. C. E. F. Wolff, chaplain; Bishop Hallam of Saskatoon; and Rev. W. M. Nimby, chaplain.

LAST SIX NAZI ESCAPEES ARE NOW CAPTURED

Two Taken At Medicine
Hat, Four More In East
Village

HERFORD, Ont., April 25.—(CP)—The search for 34 German war prisoners who escaped from a nearby internment camp last Friday night was climaxed early today with the capture of the last four in a box car on the railroad some 100 yards from the railroad station at the Lake Superior north-east village.

Two members of the Royal Canadian Mounted Police and two Ontario provincial policemen effected the capture, a few hours after the Germans left a lakefront hut in which they had hidden from searchers for the last four days.

A brilliant, warm Alberta sun shone down on the cathedral and gave a warm touch to the colorful conscriptional procession as it moved from the parish hall on 101 street into the cathedral.

The cathedral was packed to the limit of its capacity, with religious, educational, civic and lay dignitaries. Many who sought to gain admission were unable to do so. The profoundly moving two-hour service was followed with deep interest by the congregation.

His Honor Lt.-Gov. J. C. Bowen and Mrs. Bowen were members of the congregation.

Premier Churchill Will Speak Sunday

LONDON, April 25.—(CP)—Prime Minister Churchill will make a broadcast speech on the war situation at 7 p.m. 11 p.m. Sunday, April 27.

Meets Hitler

REKAS, April 25.—(AP)—Admiral Nikolaus Horthy, regent of Hungary, was received by Hitler Thursday in the Fuehrer's Berlin military headquarters. D.N.B. German news and propaganda agency reported.

Italian Army Broke The Rules

Whitaker Blames Fascist Politics

The Bulletin herewith presents the sixth article in John T. Whitaker's series, "The Truth About Italy," written by a man who has been expelled from that country by the Fascist regime. He writes his series because he has decided not to replace him and because he writes his series because he has decided not to replace him and because he writes his series because he has decided not to replace him.

Nazis Suffer Severe Losses As Withdrawal Of B.E.F. Takes Place

Middle East Headquarters Announces With-
drawal Is Orderly—No Word In London
Yet Embarkation Underway

CAIRO, April 25.—(CP-Reuters)—According to latest reports received here from Greece by the Cairo headquarters of the Middle East command, British troops are maintaining an unbroken line against the advancing Germans.

CAIRO, Egypt, April 25.—(AP)—British authorities said today that the situation of their forces in Greece was most serious, but that they are putting up a tough fight against terrific odds after making a further withdrawal. Further comment was refused.

The position in which the British forces were retiring were not given, but a communique said that the withdrawal was "orderly" and that severe casualties had been inflicted upon the attacking Germans.

ATHENS, April 25.—(AP)—German forces, carried by plane-converted troop ships, landed yesterday on the Greek island of Lemnos, 100 miles from the strategic Dardanelles, and subdued a small Greek force after a four-hour battle.

The ministry of home security disclosed indirectly that the Germans also were on the neighboring island of Samothrace.

At the same time it was reported that German forces attacked Evosmos, the long Greek island off the eastern Greek mainland, but were repulsed.

LONDON, April 25.—(CP)—An informed source predicted today that a good proportion of British forces in Greece would be evacuated within a few days, a move necessary. The present battle in Greece might be regarded as an important fight between outposts in the impending struggle for Egypt, the informant said.

LONDON, April 25.—(CP)—British forces at Thermopylae were represented today as fighting the final stages of a grim battle to protect the withdrawal towards Piræus and other ports of embarkation in retreat from the Balkans.

British middle east headquarters announced in Cairo that Empire troops had made a further withdrawal in Greece, "inflicting severe losses on the enemy." The British withdrawal in Greece was described by the British command as "orderly."

5,458 Recruits Answer Call For Army Training

OTTAWA, April 25.—(CP)—The national defence department announced Thursday night that 5,458 recruits of 21 years reported at basic training centres for the second four-month compulsory military training period starting April 21, and 4,600 were accepted.

By military statistics the number of recruits reported in 1940 was 5,458, the highest number since the second national training period under the National Defence Act, when the number reported was 5,458.

Today's War Moves

scribing German plans for
the forthcoming offensive
are based on emotional re-
actions to the rapid German
thrust through the short dis-

EXCLUSIVE

stances of the Italians rather than on a realistic examination of the difficulties of far flung campaigns. While Hitler's most advanced troops are under secret, nevertheless his military machine has no power for perpetual motion despite its spectacular use of blitzkrieg methods over limited areas.

Present news Atlantic routes credit the Fuehrer with planning the strategy for the major operations during the coming months. They are, first, a drive through the Balkans to the Gibraltar Straits, and a drive through Turkey to reach Iran, third a diversion from the Turkish movement to occupy the oilfields of Iraq and possibly Iran, fourth an offensive from Libya to the Nile, fifth an attack against Russia to gain access to the Ukraine grain fields.

These combined operations, aided by the Luftwaffe, would be a

FIREMEN ARE CLEARED IN TWO DEATHS

Continued from Page One

Moore, extensive burns and suffocation. "And we the jury, as far as we can ascertain, attach no blame to the fire department in the discharge of its duty."

Following were the jurors: P. W. Jones, H. Miner, W. Munro, J. W. Turkel, Adam S. Turnbull and John C. C. Newell. K.C. acted on behalf of the relatives of James Moore, S. C. Kerr, K.C., represented the owners of the building.

FIREMEN TESTIFIED
Fire Chief James Macgregor and several other members of the department testified at the closing session of the inquest, held in the main courtroom of the city police station.

Chief Macgregor, untroubled throughout a lengthy questioning from several solicitors, estimated that Moore was removed from his room on the top westerly side of the block, within five minutes after the arrival of the fire equipment.

The chief said he felt that Moore could have saved his life if he had heeded the advice of the witnesses hanging on to the wall with his hands until assistance reached him. Chief Macgregor described the blaze as a "flash fire," explaining this to be a type of fire which spreads with terrific speed over a highly inflammable surface and generates tremendous heat without burning deeply into building materials. It is the kind of a fire that can take a man out alive. It is gripped with fire. He estimated the department had the blaze under control within eight minutes after the equipment reached the building.

"FLASH TYPE FIRE"
Fire Marshal John Booth, supporting the theory of a flash type fire, pointing that in his opinion, the painting of the interior of the block, coupled with the draught conditions created by an open doorway from the second to third floors, caused the blaze to travel with tremendous speed from where it started in room 27, on the second floor to room 21 at the head of the stairway, where Moore lost his life.

Chief Macgregor and Fireman J. J. Loeke, explained that the

service ladder truck had been removed from in front of the block and aerial ladder truck moved into the place because of the much greater speed with which the power-operated aerial ladder can be put into place. Loeke is the driver of the aerial ladder truck and its chief operator.

WITNESSES TOLD
Loeke estimated the time from the alarm was received at the 104 street hall until the ladder was moved into place was about three minutes. He said he made estimates on the basis of his experience in the past. He has been second driver on the aerial truck since it was purchased in 1934. Evidence also showed that the power-operated Moore's room, with the hallway and the head of the stairs was wide open when firemen finally reached the man. Heat Moore closed this door he might have escaped the smoke that probably overpowered him in the opinion of witnesses.

Chief Macgregor stated he had been chief for about three years and a member of the department for 31 years. He said he was on duty on the morning of the fire. He ordered his driver to don a helmet and to go to work when they reached the block.

CHIEF'S ORDERS
Looking up at Mr. Moore at the window with smoke pouring out from around his head. He called out to the aerial ladder and as he heard Moore might topple he withdrew a net placed below the window, the chief testified, it was necessary to move the service truck back to the head of the stairs for the aerial ladder truck.

"I directed a net to be placed below the aerial ladder and as I saw that Capt. Shea on the stairs, Chief Macgregor said, witness had been able to get down the stairs. He said he saw Moore jumping back before the net was under him," Mr. Newell continued.

"I don't know about that," witness replied. "All the other witnesses say it was a long time before the net was put in place. And you heard what they said about Moore jumping back before the net was under him," Mr. Newell continued.

HOSE NOT USED
The chief said he had noticed that the fire hose had been removed from the scene on the chief's floor of the building. It was about 10 feet from Mr. Moore's room. He could not say whether an extinguisher had been used or not. He said the hose on the wall should have about 30 pounds water pressure when in use.

He thought that if the hose had been used promptly after the fire first started it might have confined it to Mrs. Pollock's room.

Witness gave in evidence of rooms in the block had been melted in the place, with fire led to the conclusion that a heat of 1800 degrees Fahrenheit had been generated. He said an open doorway was a dangerous thing when fire sweeps through an apartment block. He estimated the fire had swept up the stairs "just like lightning."

"My men worked their heads off to get Moore and the Tickers down and the fire out, they could not have done more," Chief Macgregor testified.

He said he had no criticism to make of the actions of Mr. Smith, the janitor of the block. It was the first duty of Smith to see that his tenants were safe, the chief thought.

ELECTRIC IRON CONNECTED
Fire Marshal Booth stated an electric iron still plugged into the wall found in Mrs. Pollock's room after the fire, was in his opinion the cause of the fire. The iron was found beneath a heap of debris in a corner of the room. A melted aluminum plate was found inside it.

Witness thought the iron had been on a table or chair and the heat had ignited some inflammable material near it. He did not think it possible the iron had been on the floor. Tests made by witness showed an iron plug, showed it could be left that way for several hours without a flame starting, providing there was no draught.

Gas jets on a gas stove were turned on but there was nothing to indicate the fire had started by the gas stove. A city electrician had stated the electric iron had been connected with the current at the time of the fire, the fire marshal said.

BUILDING NEWLY PAINTED
The building had been redecorated and repainted following a fire on January 25, Mr. Booth said. A door and window in room 21 were found open and the wood would have been the result of drawing the fire through the room, he said.

It takes about eight months for paint to solidify, or thoroughly dry, the witness said. Paint, said dry, throws off gases that burn rapidly, he said.

He thought the open staircase was being done away with in the building since the fire. The Catliff block was built in 1912, witness believed. He had inspected the block from time to time. He felt that Cawley-Smith might have tried to put the fire out after finding the alarm bell and notifying the fire department.

MRS. POLLOCK LOCATED
Capt. H. B. Shea told of going to room 15 and hearing someone moaning. He crawled on his hands and knees to the bed and could not feel any one there. The female was dead. Shea had to leave the room. Outside he called Fireman Johnson, who was wearing a mask. He told Johnson there was a person in the room. Johnson went inside and located Mrs. Pollock, who was lying on the floor near the window, close to a table. With the help of a third fireman the woman was taken through the window to the fire setting on the roof along the west side of the building and given artificial respiration.

Fireman Loeke told of operations with the aerial ladder. He explained the technique involved. Several times holding down a section even as it is removed by hand before the ladder can be brought into use. Special instructions by a fireman and three ladders, he said.

Cleared In Probe

FIRE CHIEF JAMES MACGREGOR, whose department was freed from blame at the death of James Moore in the Catliff block fire at an inquest concluded Thursday.

You heard what the other witnesses said about Moore being at the window for 10 minutes, what do you say to that? Mr. Newell asked.

"I don't know about that. I am only telling of what I saw myself. I haven't any one else's eyes. I only saw with my own," Chief Macgregor replied.

All the other witnesses say it was a long time before the net was put in place. And you heard what they said about Moore jumping back before the net was under him," Mr. Newell continued.

"I don't know about that," witness replied. "All the other witnesses say it was a long time before the net was put in place. And you heard what they said about Moore jumping back before the net was under him," Mr. Newell continued.

POPE PIUS ASKS ALL CATHOLICS PRAY FOR PEACE

VATICAN CITY, April 25.—(AP)—Pope Pius XII asked Catholics throughout the world today to pray for peace—the third such appeal of his pontificate.

The appeal, made in the form of a letter addressed to Luigi Cardinal Maglione, papal secretary of state, asked Catholics to devote the month of May to peace prayers.

The pope called upon the faithful to pray for peace, saying that such appeals are aroused unhappily, providing widespread disaster, there may be effected a new fire of friendship which will calm the hearts of men and bring to the universal tranquillity of an order founded on justice.

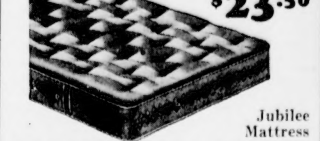

He asked Catholics especially to pray that the duration of this awful conflict be brief, and to offer their prayers for the wounded, prisoners and exiles.

As in the past, the pontiff expressed the hope for "universal, substantial and lasting peace which will not conceal the germs of discord and rancor, nor embody causes of future wars."

This, he said, should be done "by effecting a fraternal harmonization of nations bound together in friendship and by helping all peoples to enjoy the fruits of their labor in tranquil freedom."

Farm Problems
LONDON, April 25.—(AP)—A suggestion that the British Empire and the United States set up commissions to settle agricultural problems was made Thursday night by Thomas Campbell, United States farming expert now visiting in Britain, the British Broadcasting Corporation reported. Mr. Campbell said he knew Robert Hudson, British minister of agriculture, had such a proposal in mind.

Writer Thinks Outcome Of War May Be Decided Within Next 2 Months

Indications That Spain and Portugal May Be Forced Into War Brings Conflict To Most Critical Stage

By HELEN KIRKPATRICK
LONDON, April 25.—(C.N.S.)—With German occupation of Sinothrace and possibly Lebanon, reports of increased German activity in French Morocco, and recurrently strong indications that Spain and Portugal may be forced in, the war has reached the most critical point since it began.

Reports from the United States continue to indicate that the American people do not understand the seriousness of the situation. It is this writer's belief that the outcome of this war may be decided within the next two months, and certainly, by September.

The German movement to encircle the Mediterranean has made domination of North Africa a virtually an established fact. The next moves will undoubtedly be to reach the Red Sea, and in the east, and Gibraltar in the west.

On Defence Body

BRIGADIER MAURICE A. POPE, former Director of Military Intelligence and recently returned from administrative duties in England, who has been appointed a member of the Canadian section of the Joint Permanent Canadian-United States Defence Committee.

With the occupation of French Morocco, the position of French Africa, with its highly important and strategic ports at Dakar, becomes precarious and carries a definite menace to all Atlantic shipping and the control of the routes to Africa.

German seizure of the Aegean Islands, following the hard-fought Greek campaign, is preliminary to an assault upon Turkey. It is assumed that Turkey will fight, though the Germans are active in the area.

Seizure of Foochow By Japanese Aggravates China Supply Problem

PILOT OFFICER IS VICTIM OF AIR ACCIDENT

TRINTON, Ont. April 25.—(C.P.)—R. G. McDonald was killed and P.O. M. D. Lee was slightly injured when a Royal Canadian Air Force plane crashed near Curbvick, about 15 miles east of the R.C.A.F. base here, late Thursday.

Officials at the base said they received only a preliminary report on the crash and no further details were available immediately. McDonald and Lee were believed to be the only occupants of the plane.

P.O. McDonald was from Trenton, B.C. Officials said he was the instructor and P.O. Lee was a pilot. They said the plane crashed when it failed to come out of a spin. Lee is from Moose Jaw.

More Than Ever Is Country Now Dependent Upon Burma Road
By A. STEELE
CHUNGKING, April 25.—(C.N.S.)—The Japanese seizure of Foochow, Wharfoe, Ningpo and other Chinese coast towns, and the general intensification of the coastal blockade, aggravates China's already serious supply problem. More than ever is this country dependent upon the Burma road.

The shock has been softened, however, by the fact that the Chinese had expected this blow for the past two years. Until three months ago, the Japanese were not expected to move south from their base in China.

It is estimated that as a result of recent Japanese operations there has been a 25 per cent cut in the supply of supplies entering from China via the ports along the China coast. Much of the traffic, however, is in commodities and non-military, in contrast with what ever the Burma road, which is mainly a military supply line.

Already the resourcement China is devising new ways of circumventing the blockade. It is now doubtful whether the Japanese will ever be able to complete it in the numerous tasks in the extended war.

One of the most serious aspects of Japan's new blockade measure is that, in the South China sea.

EXCLUSIVE

More than half of China's total exports and imports were passing through a blockade, and one of the main reasons for this was the seizure of the ports along the China coast.

Alberta District News In Brief

COAL VALLEY

IMPORTANCE OF ROAD STRESSED

Recent incidents which stressed the importance of an all-weather road connecting Foothills, Coal Valley and Stewarts with outside points occurred recently.

As the train service is only twice weekly, a person requiring transportation on one of the days when the train is not available is generally "out of luck." A recent example of this involved Robert Tompkins, 7 yrs. of B. Tompkins, official of the Coal Valley mining company. Robert suffered a heart attack and required immediate hospital care. It was only by considerable difficulty that a car was able to get through to Calgary and the patient placed on a train for Edmonton.

An effort is now underway to have the government construct a building a highway which could be used in case like this. The committee seeking aid is composed of Jack Lamb of Foothills, Arthur Barri of Coal Valley and Wes Wilson of Stewarts. Angus Morrison, M.L.A., has promised aid and on the matter.

"Sergeant Peterson must be sick, he hasn't jumped on me all morning."

PIONEER DIES AT PINE LAKE

H. F. Lawrence, 82, Tuesday died at his home at Pine Lake. He was one of the oldest and most respected residents of that district. Mr. Lawrence was born in England, educated there and came to Canada in 1877.

He worked in the Grand Trunk Railway shops in Montreal for a time, one of his fellow workers being the late Grand Hall. He later became vice-president of the Canadian Pacific Railway. In 1932, Mr. Lawrence came west, riding a saddle horse from Winnipeg to Calgary behind the stage coach. He reached near Cheyenne and returned to England in 1933 where he married Miss Nellie Chapman of Witley Hall, Yorkshire.

He returned to Canada in 1935 and took a place on the Red Deer River between Red Deer and Delburne. Later they moved to the Pine Lake district. Mr. Lawrence served for several years as police magistrate in Red Deer in the early 1920's.

In addition to Mr. Lawrence, there are six sons surviving, and one sister in England.

Rate System Proposed To City Council

At the regular meeting of the town council Monday evening, A. C. Smith and E. Meland of the Calgary Power company proposed a new system of rates for domestic electricity.

Under this system, which some towns have already adopted, domestic users would have a minimum bill of \$2.40 which would pay for the first 20 kilowatt-hours of electricity. Any power above that would be paid for at two cents per kilowatt-hour. With no service charge of 50 cents, the rate for the first 30 kilowatt-hours, five cents for the next 20, and two and one-half cents above that. It was suggested that the increased minimum might work a hardship on a small minority of consumers, as the meter was left over to be put before the insuperable.

Red Deer Now Invaded With Army Service

A group of about 75 men arrived at Red Deer this week for the Canadian Army Service Corps school which is being established here in place of the militia training centre. These men will form part of the staff at the school and will follow.

Lt.-Col. F. C. Jamieson, V.D., of Edmonton, who has been training commanding the militia training centre since its opening last fall, is handing over command to the R.C.A.S.C. and expects to return to Edmonton this week.

Additional buildings are planned for the school included in the construction will be an accommodation for officers and other ranks, a large shop for truck repairs and a post office building.

CITY FATHERS PLAN COURSE

Lloydminster will have one of the earliest golf courses to be found in a rural town in Western Canada. If present plans of the Lloydminster Golf Club materialize, the course will be completed by Monday morning. The course will be 18 holes and will be located on the north side of the town, near the golf club.

The golf club intended to beautify the land and make use of the natural hazards for a nine-hole course. Work on this project will commence this spring but it is not expected that play on the new course will commence until next year.

The council intends to extend the water system (includes 14 miles) by the use of ground pipes for summer service to citizens not on the main line supply. Extensions are to be completed in the regulated number of water of the new service and necessary piping and material will be installed by May 15, ready for use on gardens in town.

Fund Reaches \$1,000 Mark

The War Services Fund campaign is moving with an excellent response in Red Deer and district. The \$4,000 mark is being approached in Red Deer city and many of the country districts are well ahead of previous estimates. District has contributed \$800. Sylvan Lake \$300, and Bonanza \$200. Lethbridge has already sent in \$200 with more coming. In the Crossroads district, it is

Looking them Over

by JACK KELLY

EDMONTON'S golden football, the men who played a dogged until the last whistle for the Edmonton Junior League will be seen in action today at the exhibition games at Clarke Stadium. May 21 and 22, open up the full schedule of the league which has \$800 worth of new equipment for the three clubs under its direction.

A driving start like this before the first game has helped up something that the boys have always dreamed about but never really expected to see.

It is the right idea and the only way to handle football in the neck of the woods, a neck into which now generally starts pouring mighty early. The other cities in the west will join in this thing early and be ready for playoffs by the last week of September, then there will be no need to worry about the game paying its way.

In every city in the west the various teams will simply have to start training a lot of green boys, who have never had a football in their hands. Active service enlistments have taken a lot of last fall's junior griders.

The City League could add a highly attractive feature to one or both of these spring exhibition games by arranging for a Rugby field between teams of Air Force trainees. It might be possible to arrange for an England vs. Australia till to run for half an hour or so and give the public here an idea of just how rugged football with Canadian football. The break from England, Australia and New Zealand was undoubtedly worth a lot about ball handling on passing back.

Junior Lacrosse Meet Monday

MONDAY night Edmonton lacrosse forces will meet at the Y.M.C.A. to discuss the junior situation here and organize for the season. Present indications are that the Maple Leafs, Canadians and Joust Club will be able to field teams in a city cup.

Active service enlistments have hit all clubs, but the West End Reds hold the greatest of players in Canada armed forces. From among the boys who played on last year's juvenile and junior teams of the West End organization, no less than 10 are in army, navy or air uniforms.

Many Horses Training Here

NINE teams, 20 to 25 of the best of the province are now in training here at the Redoubt track for the opening of the spring race season at Winnipeg on June 2. With the life early spring they are all in better condition than horses anywhere here have ever been in this time of year. The Edmontonians have, Walter Miller, Marion Sorenson and Alex's Ben. Benoit, have already been shipped to Whittier, Va., to complete their training.

The veteran Andy Robinson has a likely looking string running into condition. His men, Mainardi, Matt, Sunny Marcus and Camp are looking particularly good. Bruno Voda, a two-year-old owned by Morris and McManis, gives promise of being very good.

Other trainers working with strings of horses at the Redoubt track are Jack North who has Lohr, Sorenson, Janaka, Goli, and Captains; Ben Brumby with Lee Williams, Janaka, Goli and Captains; and Morris Wood and Bruce Brown, Carey Jones with Proud Saxon and Laydon and Red McDonald who has a good looking three-year-old from Will Sorenson.

Schools Hold Preliminaries Boxing And Wrestling Events

Preliminaries for both boxing and wrestling competitions for City Public Schools were held in Victoria, High gym on Thursday and the finals will be staged in the same gymnasium commencing at 8 o'clock tonight.

A total of 23 boxing and 12 wrestling entries were received for the various events, which form part of the athletic program for the public and high schools initiated by A. S. Bird, director of physical education. Dr. C. B. Willis, of Victoria, has been invited by the committee in charge.

Finals were declared for boxing and wrestling events as a result of yesterday's preliminaries. The boxing events were reserved for the various events, which form part of the athletic program for the public and high schools initiated by A. S. Bird, director of physical education. Dr. C. B. Willis, of Victoria, has been invited by the committee in charge.

In the senior division, Vernon Threlk, of Victoria, defeated Victor Threlk, of Regina, and won the title. In the junior division, Victor Threlk, of Regina, defeated Victor Threlk, of Regina, and won the title. In the juvenile division, Victor Threlk, of Regina, defeated Victor Threlk, of Regina, and won the title.

Junior Gridders to Stage Spring Exhibition Games

TITLE BOUTS START TONIGHT AT VANCOUVER

VANCOUVER, April 25—(CP)—A strong contingent of peace boys, including two potential dominion titleholders, will compete in the dominion amateur boxing championships here today and Saturday.

Three other members of the Alberta group held championships in their own province. They are Ralph Fisher, Canadian flyweight, Scott Fennell, Leithbridge, bantam, and Bill McKenna, Leithbridge, welterweight.

Saskatchewan also has a champion entered in the list of 61 fighters. He is Claude Wawaruk, Saskatoon, welterweight, who has been in the ring for only one year, but has won 25 fights.

Douglas Allen of Raymond, 160 pounds, and Jack Collins, a featherweight from Ponoka, complete Alberta's team.

Gotham Stunned As Overlin Quits Night Spots To Train

By HARRY PERKINS

NEW YORK, April 25—(BUP)—The news leaked out today that Ken Overlin, 14 long days before he is to defend his world middleweight championship in Madison Square Garden, has repaired to a rural training camp where he is engaged in milk drinking and fresh air inhaling.

When your correspondent recently unobscuringly picks Billy Rose to win the title from Overlin on May 2, he is not alone. This prediction is made in answer for the prediction of the "Garden" ring. Overlin is a contender in the middleweight division of the Garden ring. He is a contender in the middleweight division of the Garden ring. He is a contender in the middleweight division of the Garden ring.

BROADWAY IS SHOCKED. Naturally, then, it came as quite a shock to the Broadway crowd when it was announced that Ken Overlin, 14 long days before he is to defend his world middleweight championship in Madison Square Garden, has repaired to a rural training camp where he is engaged in milk drinking and fresh air inhaling.

Midweight Champion, Ken Overlin, is at Madison Square Garden training camp for the defense of his title in Madison Square Garden on May 2 against Billy Rose of Farrell, Pa. promotion in the Twenty-first Century Sporting Club. Miss Jarbo, president, is in the office and Madison Square Garden, thank you.

City League Clears Decks For Early Football Start

EDMONTON junior football, which went into hibernation last November after a record season, came out suddenly last night with a lusty roar and the promise of at least two exhibition games in May to help line up the teams for another big fall campaign.

At a meeting of the Edmonton Junior Rugby League executive Thursday night at the Edmonton Towers, it was decided to invest \$800 in new equipment and stage exhibition games at Clarke Stadium on May 21 and 22.

The Maple Leaf Athletic Club is slated to fight with the South Side in the game on May 21, while the winner will play the E. A. C. on May 22.

These games are designed to give the coaches a chance to line up their squads, give the players some spring training and help to get the stage for the start of the regular season about the middle of August.

Active service enlistments have cut deeply into the ranks of all three clubs and it is expected that the coaches are faced with the job of teaching the game to a large number of green boys who are going to be ready for league play this season.

Full fall the league bought some equipment and arranged to play the game on May 21 and 22. The annual meeting and election of officers for the Edmonton Junior Football League will be held in the Municipal at 8:30 p.m. June 3.

The age limit will remain the same as it was last season. Players must be under 21 years on Sept. 1. The Western Conference has promised to financially guarantee inter-provincial title play in the fall. This fall, it was decided that the age limit should be such as to make all Edmonton clubs eligible.

No definite word was available on whether or not the University of Alberta would be interested in entering a team again in the league and as it was decided to proceed in the meantime on a three-team basis.

NEW OFFICIALS ALLAN CUP GAME

PORT ARTHUR, April 25—(CP)—Frank Sargent, vice-president of the Canadian Amateur Hockey Association, Thursday announced new officials for the Allan Cup game of the Allan Cup series between Sudbury Millionaires and Regina Rangers which will be played in Regina Saturday night.

Sargent said G. W. Curtis, Wednesday of Trail, B.C. and Arroy Armstrong of Ottawa, Ont. will replace Dick Davis of Winnipeg and Leo Hefferman of Montreal.

Sargent said the changes were made because "the objectives which were raised after the first game were not met, and we decided to make changes and this put both teams in a better frame of mind for the fourth game."

The age limit will remain the same as it was last season. Players must be under 21 years on Sept. 1. The Western Conference has promised to financially guarantee inter-provincial title play in the fall. This fall, it was decided that the age limit should be such as to make all Edmonton clubs eligible.

Church Must Be Militant In Spreading Message In World Cleric Says At Consecration

Speaking at the beginning of the solemn service of consecration of Bishop W. F. Harfoot at All Saints' Pro-Cathedral, Rev. F. H. Wilkinson, rector of the Church of St. James the Apostle, Montreal, said that the Christian church now more than ever must be "militant and audacious" in spreading its great message among the troubled peoples of a world.

Is Supervisor

W. F. HARRIOT, who has been appointed supervisor of the Edmonton low administrative office of the Federal government's unemployment bonus plan. His present office is on the second floor of the Magee building.

A personal friend of Bishop Harfoot for more than 25 years, Mr. Wilkinson came from Montreal in person at the consecration of his old colleague. He told in glowing words of Bishop Harfoot's record as a soldier, chairman, educator, administrator and Christian gentleman.

The church should be animated by faith and love, the great and powerful words which summarize the elements of the spirit. Truth and justice, the two great pillars of the church, and the great and powerful words which summarize the elements of the spirit.

Today the church must be militant and audacious, he said, in spreading its great message among the troubled peoples of a world.

Chief Minister W. L. Mackenzie King is the preeminent figure of the spirit of our time, he said, in spreading its great message among the troubled peoples of a world.

C.C.F. WON'T TAKE STEP TO FORCE VOTING

Will Reconsider If By-
Election Inevitable
In Riding

General membership branch of the C.C.F. at a meeting Thursday night, voted to take no action that would precipitate a by-election in East Edmonton (Edmonton riding) but, in an election was forced by other parties, to again consider the question of nominating a candidate.

This recommendation will be sent to the C.C.F. constituency council as a result of a resolution passed at the meeting of H. D. Aulais, as chairman.

Debate for the by-election, for the seat of the late P. C. Casperson in June 2.

The Liberal party is waiting a remounting convention for May 9 to select a candidate for the seat.

Mr. Casperson was a Liberal. Social Credit groups have expressed themselves in favor of continuing the seat, rather than giving an advantage to the party formerly holding it.

The effect of the meeting's resolution is that if a Liberal nominee is opposed by a Social Credit candidate, the C.C.F. would consider putting a candidate in the field.

In moving a resolution that as yet, he taken, F. R. Roper said he did not believe the people of East Edmonton would support a candidate of the C.C.F. in the riding.

Mr. Roper said that the C.C.F. would consider putting a candidate in the field.

W. L. AULAIS, returned soldier, said that the C.C.F. would consider putting a candidate in the field.

Mr. Aulais said that the C.C.F. would consider putting a candidate in the field.

BY-ELECTION WATCHED BY ALL PARTIES

Two Liberals State Their
Names Will Go Before
Convention

With the East Edmonton federal by-election set for June 2 to fill the vacancy created by the death of Frank C. Casperson, M.P., Liberal developments are being watched closely by all political parties.

Mr. Casperson was a Liberal. Social Credit groups have expressed themselves in favor of continuing the seat, rather than giving an advantage to the party formerly holding it.

The effect of the meeting's resolution is that if a Liberal nominee is opposed by a Social Credit candidate, the C.C.F. would consider putting a candidate in the field.

In moving a resolution that as yet, he taken, F. R. Roper said he did not believe the people of East Edmonton would support a candidate of the C.C.F. in the riding.

Mr. Roper said that the C.C.F. would consider putting a candidate in the field.

W. L. AULAIS, returned soldier, said that the C.C.F. would consider putting a candidate in the field.

Mr. Aulais said that the C.C.F. would consider putting a candidate in the field.

Mr. Aulais said that the C.C.F. would consider putting a candidate in the field.

Fun

World-Wide News Pictures By The Edmonton Bulletin Cameramen

Buggy Ride... Army Style

Private of the 26th Infantry at Ft. Jackson, S.C., takes girl for a joy ride in the army's new model car, designed for manoeuvres not of this kind.

Life In England—War Style

Although war has taken a terrific toll in England, and bomb damage is estimated at millions of dollars, life in the cities of England continues at a feverish pace. Above on the left is King Haakon of Norway, refugeeing in London, taking the wheel of a new fire engine which he christened "King Haakon" recently. Sitting beside him is Major Jackson, head of the London fire brigade. Feature of the fire engine is a turntable ladder. In photo message to his people King Haakon has pleaded with them not to give up hope. In the center is a young British aviator holding a propeller of a plane. This propeller is used for a scoreboard against Hitler's Luftwaffe. Every symbol signifies a German aircraft shot down by the R.A.F. On the right, practicing what he preaches outside his church, Rev. F. Ralph is proving himself a real Christian. For some time exposed to the weather after homes have been bombed, the minister borrowed a coterie parson and is salvaging the furniture, which he stores in the church hall.

Traffic Hazard In England

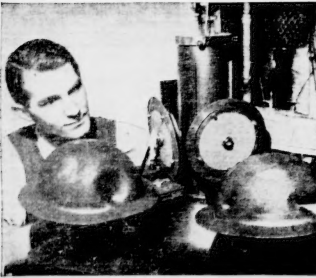

Auto drivers who beset traffic conditions in Canada will feel better for looking at this picture. After terrific German air raid on English city of Bristol, driver couldn't stop the car and it fell into the bomb crater.

☆☆☆ ☆☆☆

Canadian Tars Greeted By Starlets On California Visit

Led by Max Pickford, a host of Hollywood starlets, were on hand to greet the officers and men of a Canadian warship when it recently visited California. Max Pickford is pictured, centre, with the commander of the vessel as he took her to a brief tour of the interior of the ship.

Science Helps Protect Fighting Men

Working hand in hand with the fighting forces of Canada and the rest of the empire are the scientific of the National Research Council at Ottawa. Already they have made tremendous progress in contributing to the war effort, both in the industrial field and among the armed forces. One of the research workers is shown left, as he examines steel helmets in special tests. One has been reinforced by a bullet and the other has been tested in four ways. A line jump from the laboratory of the National Research Council at Ottawa is the scene shown in this photo, right. While an officer checks the supply, helmets are stacked ready for use aboard an armed merchant cruiser of the Royal Canadian Navy.

☆☆☆ ☆☆☆

Flying Boat For Britain

One of the new Boeing 314-A Monomотор flying boat, one of six constructed at a total cost of \$4,000,000 to the United States for Britain. This plane flew recently from Los Angeles to Miami, Florida, in 18 hours 40 minutes.

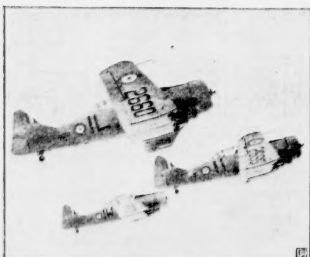

President's Son Weds Former Nurse

Captain James Roosevelt, eldest son of President Franklin D. Roosevelt, is pictured with his bride, the former Roseline Schneider, now his nurse, after their wedding at the Randolph Hills Club home. Mrs. George P. Converse, the former Anita Stewart of silent films. At the left is the groom's mother, Mrs. Eleanor Roosevelt. At the right is the bride's mother, Mrs. Jerome Schneider. Roosevelt, a captain in the Marine Corps, met his bride two years ago when she nursed him back to health after an operation at the Marine Clinic. It is the first marriage for the bride and the second for Roosevelt, whose first wife was the former Betty Cuthbert.

The Long And Short Of U.S. Air Corps

Here are the tallest, the smallest and the next in the tallest of the boys at the U.S. Army Air Corps Kelly Field, Texas. Left, James B. Cook, known as "The Man," who is 6 feet 5 inches tall and wears a size 12½ shoe. Centre is Capt. R. M. Scoville, who is 5 feet 11 inches tall, and right is James J. Johnson, 4 feet 4 inches tall.

Training Empire Fledglings

Wingtip to wingtip these North American Harvard trainers were taken from the first Canadian waterway. The planes at the controls of these pilots are training advanced students flying at a Marine Flying Training School of the R.C.A.F. at London, Ontario. These planes, equipped with retractable landing gear and capable of a speed of 150 miles an hour, are now manufactured in Canada.

Somewhere On The British Coast

A group of anti-air soldiers are pictured loading the huge coastal defence gun with a shell weighing a ship of a ton, gunnery on the British coast. The gun is a 12-inch Howitzer and is set on a railway mounting, ready to be moved to any point at a minute's notice.

This photo shows a British gunner elevating a huge gun after he loading, ready to hurl death and destruction to the enemy should he attempt an invasion. Many of these big guns are in readiness along the possible invasion points. They are huge 12-inch Howitzers which can fire a shell weighing a third of a ton. The gun is set on railway mountings and can be transported to any point.

Seized Italian Seamen Arrive For Stay At Ellis Island

Believed to be one of the largest U.S. immigration groups, the 300 Italian seamen who were taken from the Italian freight liner Conte Biancamano after the vessel was seized in the Panama canal zone. Women are among these passengers, and mostly from the second tier. They arrived at the immigration authorities about the immigrant Edward Wood from the Canal Zone. From there the immigration authorities took them to the pier and transported them to Ellis Island. The photograph was made on their arrival at the island. Though closely guarded, officially they are "not under arrest."
